

SUMMER COLOR!

Welcome to Hilltop Gardens! We are a family owned business which prides itself in providing high quality plants, information, and services in a beautiful and fun environment and at a fair and honest price.

Summer Hours:
9-6pm Mon. - Sat.
10-5pm Sunday

Beautiful Flowering Hanging Baskets

Hilltop Gardens specializes in growing hundreds of unique hanging baskets which are filled with color.

Custom Potting

Bring in your patio pot containers and we'll refill them for you according to your needs. The right plants for your sun exposure, your color selection and your watering habits. Or, contact us and we will pick up your pots, plant them and return them for a small charge. Need a spruce up mid-season? Call us and we will come out and get your pots "party ready". Our custom containers are ideal for any special occasion. Delivery is available within ten miles of Hilltop Gardens.

Awesome Annuals

All of our annuals are Colorado grown, ensuring your bedding plants will be fresher, stronger and better adapted to our unique climate.

Gorgeous Perennials

Create your own garden retreat with Hilltop Gardens superior quality perennials. Perennials are easy to grow and are a good investment, multiplying themselves every year with very little work from you.

Summer Color

Summer is the season of some of the brightest colors in the garden. Summer-blooming annuals are invaluable planted among perennials, helping tie together the various blooming seasons of these more permanent plants. They are the most satisfying way to achieve blankets of color in the garden. Perhaps most impressive of all is that almost every color, shade, and tint is available in one flower or another.

Vertical Gardens

Vines are among the most versatile of plants, adding beauty, fragrance and vertical interest. We have many varieties available from annual to perennial and from twining to clinging types. Perennial vines come back year after year and provide years of pleasure.

Got Shade?

Coral Bells or *Heuchera* are an easy way to update your shade or dappled shade garden. There's one for every color scheme, from amber to lime green. Their dainty, bell-shaped blooms, and bold colorful foliage are perfect for a cottage garden or woodland setting.

Rabbits Eating Your Plants?

Liquid Fence is very effective in discouraging those little critters from nibbling on your plants. Available in ready to use spray bottle and concentrate.

Summer Care For Roses...

Roses can tolerate a lot of water only if they are well drained. If your rose bed is not well drained due to location or clay, water less frequently. Avoid all overhead watering to prevent fungal disease. When you do water, apply enough water to penetrate two to three feet below the surface of the ground. Guard against insect and disease damage. Use a systemic disease-insect fighter at each rose feeding.

Ornamental Grass

Ornamental grasses blend well with other garden plants and can be used in a variety of landscape situations, quickly providing the height and volume ordinarily expected of slower growing plants. The small, colorful grasses like blue fescue, make striking accents among groundcovers or interspersed with other small plants along borders. We also have taller grasses that are upright with arching foliage topped with large, attractive, long lasting plumes.
